

Sprint 2 Report

Truck-d

Team: Julio Hurtado, Mathew Scolari, Robert Mushkot, David Orellana, Mamon Alsalihy
Revision Date: 11/03/19

Actions to stop doing:

The team is generally satisfied with the current workflow. All of the tasks that were assigned during Sprint 2 were completed prior to the start of Sprint 3. The team had good communication and all members were available for questions, providing support and assistance when needed.

Actions to start doing:

The team would like to start earlier on their initial tasks and be more consistent with standup posts on Slack.

Actions to keep doing:

Make sure to keep communication up because we need to communicate and coordinate with one another about different tasks. Also making sure that teammates' questions are being answered.

Work completed/not completed:

- As a vendor, I want a homepage so that I can sign in
- As a customer, I want a homepage so that I can search for food trucks in my area

Work completion rate:

- Total number of user stories: 2
- Total number of estimated ideal work hours completed: 33
- Total number of days during the prior sprint: 14
- User stories per day: 1/7
- Ideal work hours per day: 2
