

Sprint 1 Plan

Truck-d

Team: Julio Hurtado, Mathew Scolari, Robert Mushkot, David Orellana

Release Date: 12/2/19

Revision Number: 0, Revision Date: 10/9/19

Goal: The goal for this sprint is to create a landing page for both customers and vendors who come to the site. We want users to be able to navigate the web page to continue their Truck-d experience.

Task listing, organized by user story:

As a customer or a vendor, I want a landing page to choose the experience I would like to continue with on the site

- Task 1: Create a design mock up. *2 Hours*
- Task 2: Figure out implementation methods. *1 Hour*
- Task 3: Get a server/website up *3 Hours*
- Task 4: Implement landing page. *5 Hours*
- Task 5: Create working links for vendor and customer experiences. *3 Hours*

Team roles:

Julio Hurtado: Team Leader, Developer

Robert Mushkot: Developer

Mathew Scolari: Developer

David Orellana: Developer

Initial task assignment:

Julio Hurtado: define API endpoints, setup customer/vendor modules.

Robert Mushkot: Setup database, define schema.

Mathew Scolari: Setup react/react redux, find component library.

David Orellana: UI mock-up.
