

Sprint 4 Report

Truck-d

Team: Julio Hurtado, Mathew Scolari, Robert Mushkot, David Orellana, Mamon Alsalihi

Revision Date: 12/2/19

Actions to stop doing:

The group is mostly satisfied with the current work process. All tasks and user stories were completed before the end of the sprint and all unit tests were performed and passed. The team had good communication with everyone being available for easy and constant communication which lead to all tasks being completed.

Actions to start doing:

The team would like to update and use the Trello/ Scrum board more to keep track of which tasks need to be completed. The team would also like to be more consistent with doing daily stand-up reports on Slack as the team does them very infrequently.

Actions to keep doing:

The team would like to keep being consistent in its use of communication channels. The team would like to keep planning carefully how much time each task may take.

Work completed/not completed:

User stories:

- Completed:
 - As a vendor, I want an order queue to manage all incoming orders for my restaurant. (8 Points)
 - As a customer, I want a place to view my order so that I can review the items before placing my order. (8 Points)
 - As a vendor, I want a profile editor to edit information about my food truck such as location, hours, etc (5 Points) from Sprint 3
 - As a customer, I want to add menu items to my cart so I can buy food. (8 Points) from Sprint 3
- Not Completed
 - N/A

Work completion rate:

- Total number of user stories: 4
- Total number of estimated ideal work hours completed: 43
- Total number of days during the prior sprint: 14

- User stories per day: 2/7
- Ideal work hours per day: 5

Burnup Chart:
